

Nurture Technology Start-ups, Foster Long Term Development

In Hong Kong, there has been a significant increase in the number of start-ups in the past few years. Responding to market needs, HKQAA has developed this registration scheme with the aim to help new companies enhance and demonstrate their management competence. It aims to motivate organisations to systematically manage their operations, particularly in terms of quality, finance and information security, so as to attain long-term success.

Benefits

Our aim is to assist the start-ups to enhance their management performance and achieve long-term success by:

- Achieving performance objectives by defining and monitoring the measurable targets and goals
- Reducing business risks by identifying and managing the risks
- Continual improvement of operations
- Demonstrating management competence
- Enhancing business partners' confidence
